Schedule Whatsapp messages with PYTHON

> pip install pywhatkit

Code

```
1       import pywhatkit as purepython
2
3
4       #(phone no. with country code, Message, Time: Hours, Minutes)
5       purepython.sendwhatmsg("+249******", "Send with python", 11,9)
```

Output

In 80 seconds web.whatsapp.com will open and after 20 seconds message will be delivered
